

Scenario 1: Domain WS-Central

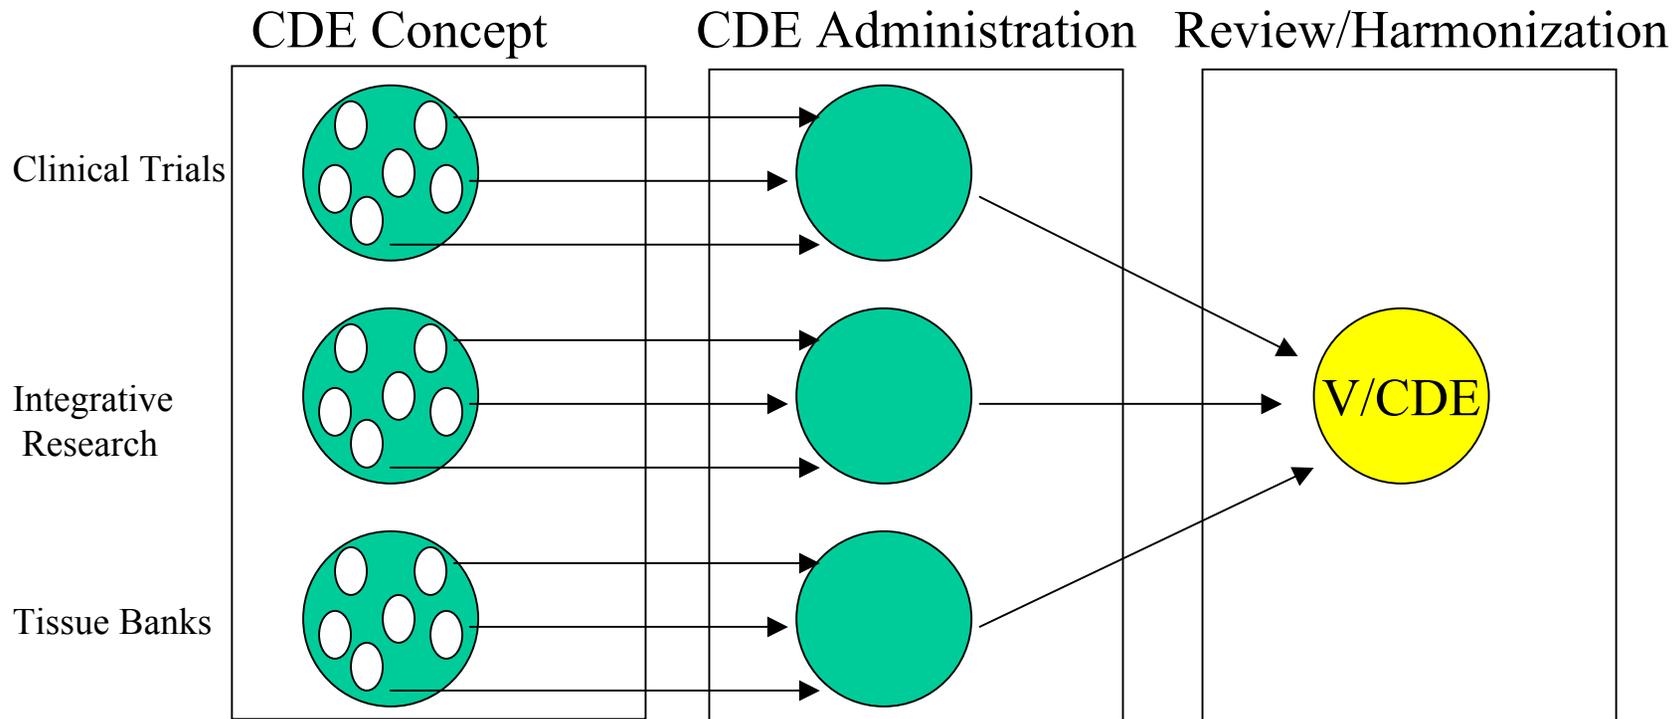

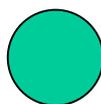

Figure 1. Cancer centers / scientists are responsible for proposing new CDE Concepts in the CDE development process. CDE Administration is then carried out by a designated group from the respective Workspace. The final review, acceptance and harmonization is carried out by the Vocabulary and CDE (V/CDE) Workspace, along with the NCI.

 Workspace

 Individual Cancer Centers within Workspace

Scenario 2: Domain WS-Distributed

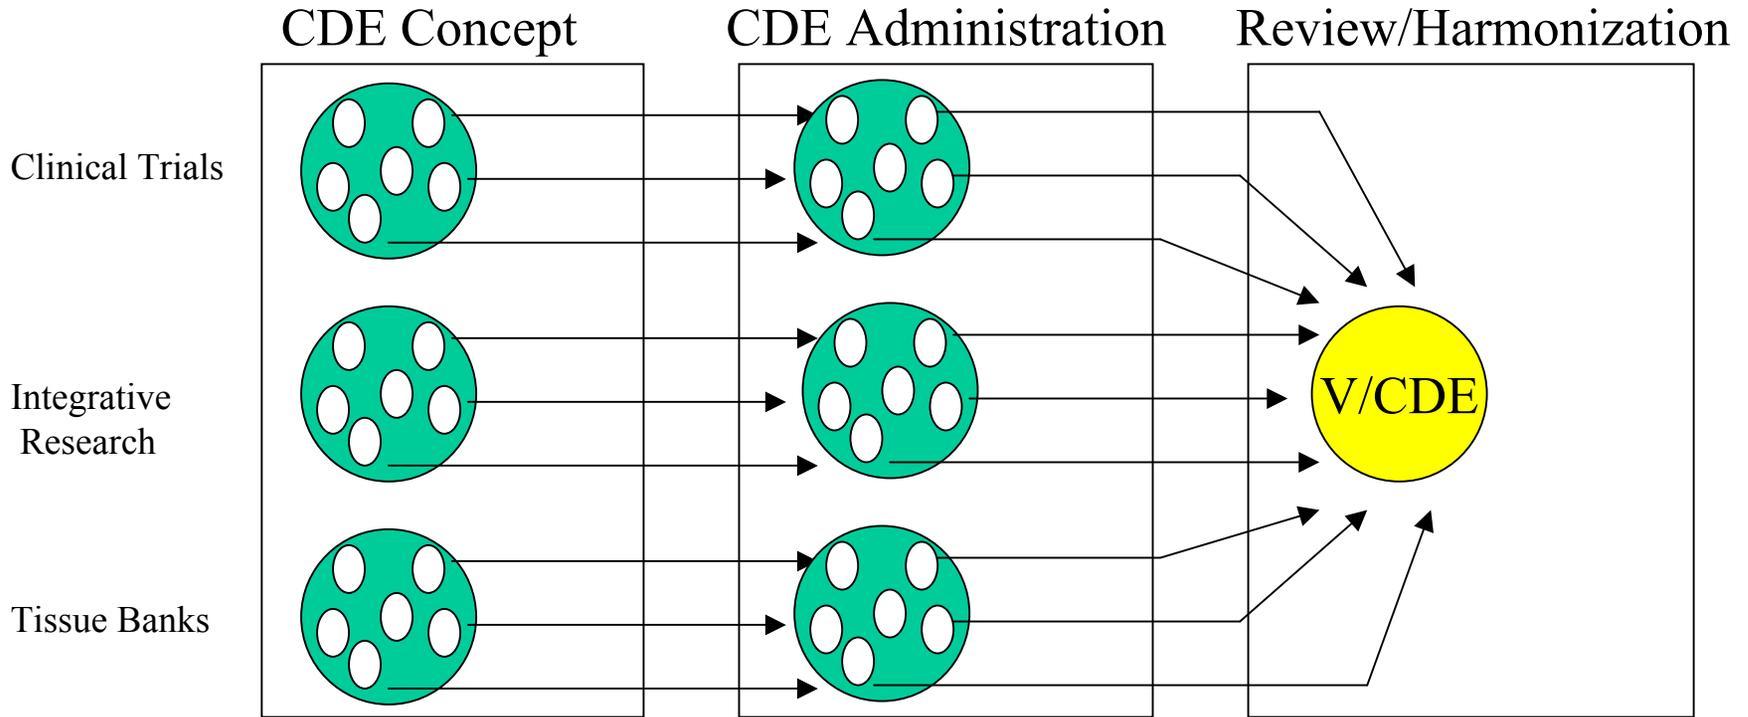

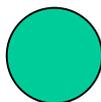

Figure 2. Cancer centers / scientists are responsible for proposing new CDE concepts in the CDE development process, as well as providing CDE administration. The final review, acceptance and harmonization is carried out by the V/CDE workspace, along with the NCI.
